

**A COMPLETE SOLUTION  
FOR YOUR  
AVIATION BUSINESS  
FBO SERIES**

**AVMAN** is a true cloud-based ERP system for FBOs. It will help you maximize profitability, improve efficiency, and focus on customer service. A true FBO enterprise system begins with a strong accounting system and then layers, integrates, and automates business processes bringing together your marketing efforts, fuel sales, hangar rentals, and other business functions. AVMAN goes beyond a traditional ERP system to deliver collaborative initiatives such as customer relationship management (CRM), and business intelligence (BI).

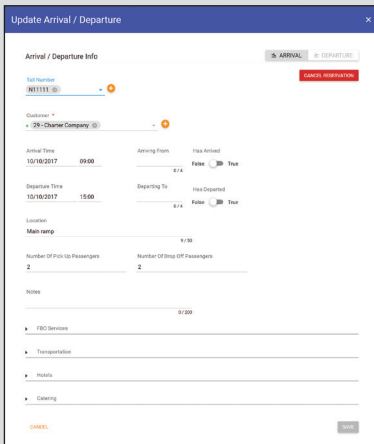

**AVMAN** comes from a company with a thirty-year history of providing cost and financial systems to businesses. Built upon **MOSAIX's** market leading accounting system, Comptroller™ AVMAN will help you reduce overhead labor costs by automating many tedious tasks.

**Real-time Dashboard**

- Automatically configured based upon your role in the FBO
- Never miss a customer request for car, lodging, or other services
- Receive alerts when you have new sales leads
- Easily view fuel quantities and low fuel warnings
- View your team's progress towards fuel sales goals

**Reservation Calendar**

- Quick view of today's ramp activity
- Easily add or modify departures and arrivals

- Book fuel orders, and modify requested line services
- Manage transportation, hotel, and catering requests
- Completed arrivals or departures automatically compiled into an order for payment

**AVMAN CSR Desk**

- View fuel orders directly from the CSR Fuel Board
- Easily add new orders or modify existing orders
- Handle quick sales with the Counter Sales POS feature
- Takes payment by credit card, contract fuel, as well as typical payment methods

**Fuel Orders**

Pending | Completed | Archived

Completed Date Start	Completed Date End	Status	Tail #
8/18/2017	8/18/2017	All	

Order #	Completed Date	Tail #	Fuel	Quantity	Notes	Status
172	08/18/2017 14:04	N11111	Fuel -Jet A	290		Completed
173	08/18/2017 14:02	N12345	Fuel -100LL	37		Completed
174	08/18/2017 14:05	N50000	Fuel -Jet A	200		Invoiced
175	08/18/2017 14:02	N500AA	Fuel -100LL	12		Completed
179	08/18/2017 14:03	N55555	Fuel -100LL	21		Completed
180	08/18/2017 14:03	N34567	Fuel -100LL	6		Completed

**Ramp Fuel Board**

- Login to the truck using your AVMAN mobile device
- Real-time fuel gauge shows what's left in your truck
- Only see orders for the type of fuel in the truck
- Orders accepted by a truck will no longer appear on other trucks fuel board
- Completed orders will automatically appear on the CSR Fuel Board for payment

**Fuel Management**

- Manage fuel trucks, receive real time notification of how much fuel is in each truck
- Record new fuel loads received
- Adjust fuel quantities to correct errors or record lost fuel
- All fuel transactions automatically update all recorded accounting records

**Hangar Management**

- Upload and manage tenant contracts. Receive notifications when contracts are ending
- Control billing frequency, specify various charges based upon aircraft size or other features

**Invoice Hangar Tenants**

Rental Structure to Invoice

- Monthly Hangar Rentals

Invoice Period: August 2017 **CHANGE INVOICE PERIOD**

Frequency	Begin Date	Price
Monthly	01/01/2017	\$750.00

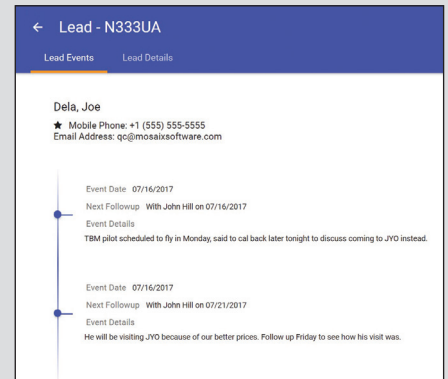

Invoice Date: 8/16/2017

Tenant	Contract Price	Email Address
3 - Cooper, John	\$600.00	
3 - Cooper, John	\$600.00	
4 - Dice, Matt	\$1,470.00	
4 - Dice, Matt	\$1,470.00	

- Manage hangar reservations for transient customers
- Receive dashboard alerts when space is available due to tenants not being on premises

**CRM**

- Provides your FBO with the tools necessary to ensure you do not miss any customer opportunities
- Track new leads, ensure on-time follow-up, and send quick accurate quotes to customers

- AVMAN seamlessly guides your customer's order through the entire work flow from first contact through invoicing and payment

**Financial and Management Accounting for Aviation**

- Accounting functionality derived from MOSAIX's market leading Comptroller accounting system for over thirty years
- AVMAN contains all the traditional components of an accounting system
- Manages all aspects of inventory control, costing, and reporting
- Tightly integrated with Counter Sales, Fuel Sales, Hangar Rentals and all inventory features
- Provides the management information you need on customer trends, profitability of individual business activities, and many other key factors to help FBOs grow and increase profitability
